

COMPLIANCE. EFFICIENCY. OVERSIGHT.

DRIVER COMPLIANCE

ENCOMPASS®
Fleet Management
System

DRIVER COMPLIANCE: SIMPLIFIED & IMPROVED

They're some of the toughest tasks you have.

Managing compliance related to your drivers includes Hours of Service, hiring, drug & alcohol program management, driver qualification, training and more. These are also some of the most scrutinized — and penalized — compliance areas. But with the J. J. Keller® **Encompass® Fleet Management System**, effectively managing and improving driver compliance is easier. You get:

- › **INTERACTIVE TOOLS** for managing all aspects of driver compliance, including vehicle compliance and performance tracking
- › **IN-DEPTH REPORTING** to identify trends and potential risks across all locations for a holistic view of compliance
- › **PROACTIVE ALERTS** for required and expiring paperwork, training and violations
- › **24/7 ONLINE ACCESS** to your records and data
- › **COMPLETE VISIBILITY** to your driver and employee records and the ability to streamline daily tasks

DRIVER QUALIFICATION RECORDKEEPING

Ensure that every person driving a CMV is fully qualified according to the driver qualification regulations. Encompass:

- Provides regulation-based credential checklists, paperless recordkeeping and personal driver information capture
- Alerts you to scheduled and pending renewal dates
- Enables you to efficiently track medical exam certificates and other applicable documents

ALCOHOL & DRUG PROGRAM MANAGEMENT

Comply with the DOT's alcohol & drug testing requirements and help prevent alcohol- and drug-related crashes. Encompass:

- Automates random test selections
- Records all driver test results, laboratories and MROs
- Provides follow-up tracking to ensure that all required tests are conducted

HOURS OF SERVICE COMPLIANCE

Avoid citations, fines and out-of-service orders that can result from HOS violations. Encompass:

- Audits drivers' ELogs or paper logs against Parts 395 and 396
- Provides numerous Hours of Service rule sets to best fit your operation
- Provides reports to help you easily spot violations and trends

ELOGS MADE EASY

Automate Hours of Service in Encompass by adding J. J. Keller's mandate-compliant electronic logging devices (ELDs).

J. J. Keller® ELDs collect engine and driver data for compliance and performance reporting.

Encompass® ELD app receives data from the J. J. Keller® ELD and works with most drivers' smart devices.

PRE-EMPLOYMENT QUALIFICATION / HIRING

Manage the costly and complex process of hiring new drivers while ensuring compliance with all pertinent regulations. Encompass:

- Provides an online application with all necessary DOT information and the ability to customize it for your company's needs
- Simplifies MVR and safety performance history recordkeeping with automated workflow tools
- Accepts pre-employment screening data from third-party providers

ACCIDENT RECORDKEEPING

Handle the extensive amount of paperwork and recordkeeping that's required after an accident occurs. Encompass:

- Tracks and electronically stores accident call records, insurance reports, police reports, witness statements, accident photos and a company investigation report
- Allows you to create customized fields to capture additional information on DOT reportables, as well as near misses and incidents
- Provides guidance on what constitutes a DOT reportable accident

DRIVER TRAINING

Track drivers' required and best practice training, attendance, certification and related renewables. Encompass:

- Provides electronic tracking of required and company-specific driver training (both initial and ongoing)
- Sends you alerts and notifications of new, pending and past due regulation-required and company-specific training to ensure ongoing compliance
- Enables you to audit your training internally, as well as forecast your future training needs

AUTOMATE DRIVER COMPLIANCE

Put our cloud-based technology at your fingertips to get in-depth reporting and streamline the driver compliance tasks you're already doing.
